UNC Charlotte Psychology: Study Abroad in Kingston, UK!!!

World-wide university partnerships offered by UNCC's Office of Education Abroad (Office of International Programs) <https://edabroad.uncc.edu/> can introduce you to locations and experiences well beyond the walls of Colvard. Studying abroad is a wonderful opportunity to engage with a different culture and benefit from the resources of another educational institution. Many institutions abroad offer excellent psychology courses, consider taking some required psychology courses and classes on topics different from those available at UNCC. Study abroad can easily fit into your academic plan by visiting the Office of Education Abroad to select an international program, meeting with your psychology advisor to decide on the best time to go and the classes to take, and consulting with the Office of Student Financial Aid <http://finaid.uncc.edu/> to make the opportunity affordable. Learn about yourself, learn about psychology, and learn about the world by participating in study abroad!

Kingston University is located in a picturesque, historic suburb just a short distance by train from London's vibrant city center. With students from more than 150 countries, opportunities abound to meet others from around the globe. Students attending Kingston University also will benefit from its career-focused courses and excellent teaching quality.

Sample Classes: Learning & Behavior; Social Selves; Developmental & Individual Differences; Psychology of Art & Film; & Neuropsychology & Neuro-rehabilitation
